MSc in Computer Science

Francesco Bacchin (2089122)
Leila Dardouri (2080473)

AY 2022-2023

The project

GOAL:

Implement an alternative marathon tracking system:

- lower cost;
- lower energy;
- minimizing the additional hardware needed (e.g., no RFID tags).

Study the advantages and the limits of such implementation.

OUTCOME:

A Bluetooth based system, requiring an Android mobile application which interacts with BLE beacons placed along the path.
